

Facebook App Setup

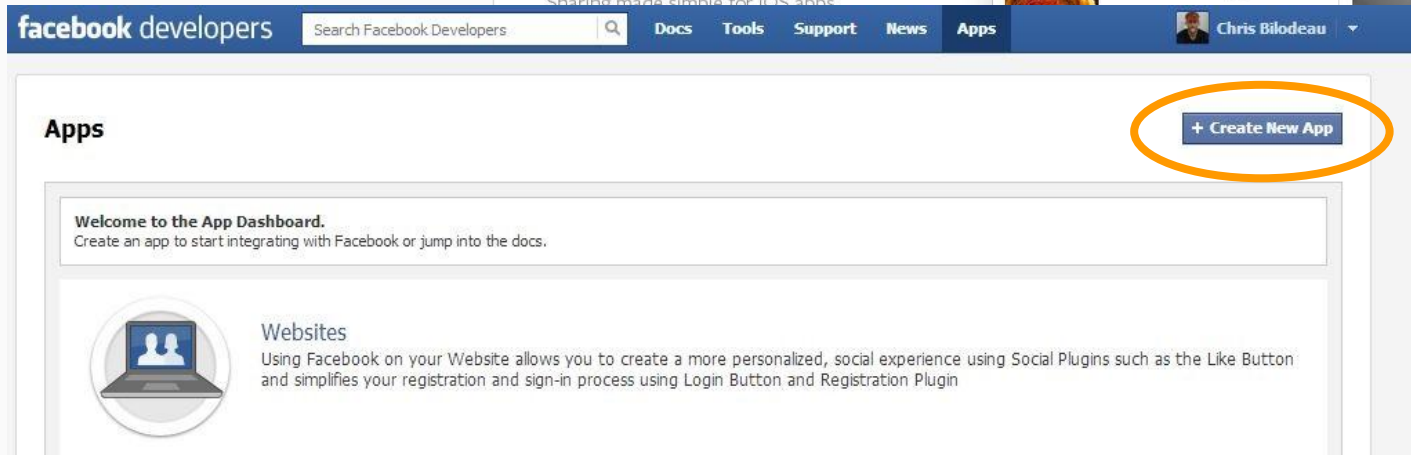

A step-by-step guide to setting up the Anchor Mobile SMS system to post to a business page as the business.

Facebook SMS Intergration

Step 1. Setting up the App

- You must be the creator of the Page to allow the app to post as the page itself!
- Go to <https://developers.facebook.com/apps>
- Click on Apps tab
- Create New App

Step 2. Setting up your App

- Name your App
- Select App Category
- Review Facebook Platform Policies
- Click on Continue if you agree

The screenshot shows the 'Create New App' form on Facebook. The form has a blue header with the text 'Create New App'. Below the header, there are four main sections:

- App Name:** A text input field containing 'Anchor Mobile Social Integration' with a green 'Valid' status indicator to its right.
- App Namespace:** A text input field containing 'Optional'.
- App Category:** A dropdown menu with 'Productivity' selected, and a secondary dropdown menu labeled 'Choose a sub-category'.
- Web Hosting:** A checkbox labeled 'Yes, I would like free web hosting provided by Heroku (Learn More)' which is currently unchecked.

At the bottom of the form, there is a grey bar containing the text 'By proceeding, you agree to the Facebook Platform Policies' on the left, and two buttons, 'Continue' (in blue) and 'Cancel' (in grey), on the right.
